

# Scalable, modular CIP Systems

fully customized for your  
process system

Wright Process Systems is an industry leader in the design and implementation of sanitary clean-in-place (CIP) systems. Using a modular mechanical and control foundation, we fully customize each CIP system for your facility, increasing efficiency in your process while saving on costs.

## Wright Process Systems: Your CIP solutions provider

Features of our modular CIP systems include:

- 1-, 2-, 3-, and 4-tank systems (rinse, acid wash, caustic wash, recovery)
- Single-use and multi-pass systems
- Multi-circuit systems
- Aseptic and sterile grade CIP systems
- Solids recovery and high-strength waste integration
- Raw and pasteurized segregated circuits
- Mixproof CIP integration into high-availability productions
- Skid-mounting for ease of integration
- Shop or field fabrication
- Design for process-specific turbulent flow velocity to assure optimal cleaning
- Customization for any application
- Industry-standard PLC and HMI control systems
- Integrated caustic, acid, and/or sanitizer injection
- Pneumatic and electrical pre-wiring
- Access platforms and catwalks for larger systems
- Solids recovery, high-strength waste, and other advanced functionality

## Scalable solutions designed for your specific needs

Our CIP systems can be skid-mounted or secured to a plant floor. Each system is fully adaptable to your unique processing application. Wright Process Systems also offers state-of-the-art automation and control packages, including PLC/HMI programming, instrumentation, panel design and fabrication, and startup assistance and training.

## Wright Process Systems is your partner in process system success
